## — FLYING LONGHORNS —

Dear Texas Ex:

“Everything wears an aspect of unreality,” Ernest Shackleton wrote. “Icebergs hang upside down in the sky; the land appears as layers of silvery or golden cloud. Cloud-banks look like land, icebergs masquerade as islands...” Watch as normal human scales and reference points disappear amidst the grandeur of nature in its most pristine form, from extended sunrises that paint the icescape in soft shades of pink to the lingering golden light of the austral summer, where humpback whales, leopard seals and Adélie penguins mingle among sparkling turquoise glaciers and glimmering icebergs. Be among the fortunate few to discover Antarctica, and see how its spectacular illuminations reveal the mystique and contrasts of this unique place to those fortunate enough to visit on this extraordinary 14-day travel program.

Retrace the sea-lanes navigated by storied explorers Shackleton, Amundsen and Scott, who sought out the final frontier of “The White Continent.” Cruise for nine nights aboard the exclusively chartered, state-of-the-art, Five-Star, ice-class L’AUSTRAL, one of the finest vessels plying Antarctic waters. With private balconies in 95 percent of its ocean-view, Five-Star accommodations and encompassing state-of-the-art ship design and technology, L’AUSTRAL sets the highest standards in elegance and comfort.

The onboard expedition team of naturalists will guide you on excursions aboard sturdy Zodiac craft to explore the intricate ecosystems and marvelous nuances of the abundant wildlife found ashore, especially penguins and seals that have no fear of humans. A comprehensive schedule of exclusive and specially arranged lectures will enhance your Antarctic experience.

This once-in-a-lifetime, comprehensive program is the best Antarctic cruise value, featuring ocean-view accommodations aboard a Five-Star expedition ship and including all excursions and complimentary alcoholic and nonalcoholic beverages on board. It is simply the optimal cruising experience and sells out quickly year after year. Make your reservation now!

This outstanding itinerary is brought to you by the Texas Exes Flying Longhorns travel program, which supports the association’s mission of promoting and protecting The University of Texas at Austin and uniting its alumni around the world.

The association is a huge proponent of continuing education and there is no better classroom than our world. Experience rich history and culture in the company of your fellow Longhorns! Are you ready for the adventure of a lifetime? We’re standing by to answer all of your questions and/or take your reservation. Capacity is limited on this popular program and it may sell out quickly. # Wildlife Conservation

*The unique international Antarctic Treaty protects Antarctica's wildlife and its natural habitats and provides a guide for visitors to this great continent, where no country has sovereignty.*

*To protect the fragile Antarctic environment, all travelers will go ashore in small groups, so as not to crowd rookeries, disturb nesting sites or disrupt research. All visitors will be asked not to remove—or leave—anything ashore.*

Visit the city's renowned Recoleta Cemetery—lined with ornate vaults and sculptures, this is the final resting place of Eva Perón, the legendary former First Lady of Argentina.

*Cover photo: Expert-led Zodiac expeditions offer intimate glimpses of the craggy crescent peaks and intricate ice floes that characterize the remote Antarctic landscape.*

*The southern giant petrel spends most of its life at sea but is known to return to the same nest annually.*

## Cruising Drake Passage

**Wednesday, January 30, to**

**Thursday, January 31**

Cross the legendary **Drake Passage** and, upon reaching the Antarctic Convergence, watch for seabirds and breaching fin and humpback whales feeding on plankton and krill brought to the surface by cold Antarctic currents merging with warmer waters of the South Pacific and Atlantic Oceans. Your expedition team of naturalists will present insightful lectures, preparing you for your first landing in Antarctica. During the evening, enjoy the lingering twilight of the Antarctic summer.

# ANTARCTICA

*Please note that the ship's cruising pattern and positionings are dependent on weather, ice and sea conditions and are subject to change.*

## Cruising Antarctica

Friday, February 1, to  
Tuesday, February 5

Cruise below the 60<sup>th</sup> parallel south to the outer shores and islands of the Antarctic Peninsula, Earth's last frontier. Here, explore some of the world's most pristine wilderness, where towering mountains of ice and volcanic rock create precipitous coastlines and islands, and ever-changing patterns of ice stretch toward the boundless blue horizon. In this seemingly harsh environment, a vast array of marine wildlife flourishes, including millions of penguins, countless seabirds and thousands of seals and whales. An otherworldly topography of volcanoes and glaciers, populated with riveting wildlife and historic outposts, unfolds—completely immersing you in the irresistible nuances of Earth's most inaccessible continent for the complete Antarctic experience.

Cruise through breathtaking, glacier-lined **Neumayer Channel** to rugged Goudier Island. Visit **Port Lockroy**; nestled among serene mountain peaks as high as 6000 feet, the port was originally constructed in 1944 by an eight-man team as an intelligence post for British espionage during World War II and converted into a whaling station and scientific base in the 1950s, and its

surrounding grounds are populated by blue-eye shags and gentoo penguins. Gain insight into the daily activities of past researchers at the living museum known as "Base A" and mail a postcard stamped with an Antarctica postmark from the official British Post Office.

**Rocky Jougla Point on Wiencke Island** offers a rare opportunity to view the skeletal remains of an adult blue whale and to see populous colonies of gentoo penguins and kelp gulls that inhabit the entire region. Call at **Petermann Island**, the southernmost point of your journey, and watch its thriving rookeries of Adélie and gentoo penguins and blue-eyed shags.

Flanked by sheer cliffs of towering glaciers between the Antarctic Peninsula and Booth Island, cruise through the **Lemaire Channel**, where seven majestic miles of mountains and interweaving patterns of ice floes brim with wildlife.

Listen for the low rumbling of Rudolf Glacier as it calves slabs of ice into **Neko Harbor**, named for an early 20<sup>th</sup>-century whaling boat. Surrounded by soaring glaciers and snow-covered mountains, this spectacular harbor is one of the most dramatic sights on your expedition. Here, make your first "continental landing" in Antarctica.

In **Paradise Bay**, crystal cliffs of ice descend from sky-bent mountains into the iceberg-laden waters along the Antarctic Peninsula's western coast. Named by 19<sup>th</sup>-century whalers who sought shelter in its coves, it is an ideal sanctuary for

*In contrast to sociable Adélie penguins, which congregate in large colonies, the leopard seal cherishes his solitude and independence.*

*Enjoy an up-close, unparalleled view of chinstrap penguins in their natural Antarctic habitat.*

marine wildlife including humpback whales, crabeater seals and Cape petrels.

**Deception Island**, actually the rim of a dormant volcano crater, encircles the Port Foster caldera, where the ship enters through Neptune's Bellows, a sublime harbor ringed by snowcapped peaks and sheer cliffs. In **Pendulum Cove**, see the steaming, geothermally heated shallows. Observe the amazing colony of tens of thousands of chinstrap penguins at Baily Head. Then walk along the black sand beaches of Telefon Bay

to nearby craters, for firsthand insight into the pivotal volcanic activity that created the island and shaped the natural history of the region.

One of the smallest but most beautiful of the South Shetland Islands, crescent-shaped **Half Moon Island** is known for its craggy volcanic rock formations and tranquil lagoons. It is also the site of Cámara Station, a base monitored by Argentine biologists studying regional wildlife. Here, observe the antics of the island's colony of chinstrap penguins.

Relax and reflect on board as the ship turns north, and attend the Captain's Farewell Reception.

### **Cruising Drake Passage/ Ushuaia, Argentina** Wednesday, February 6

Cross the Drake Passage and enjoy lively, informative discussions with the ship's naturalists. Watch for endangered albatross and the many different species

of petrels as you cruise across the Antarctic Convergence.

### **Ushuaia/Buenos Aires** Thursday, February 7

Disembark in Ushuaia and fly to Buenos Aires. Continue on the Iguazú Falls Post-Program Option with an overnight stay in Buenos Aires or depart for the U.S.

### **U.S.** Friday, February 8

Arrive in the U.S.

*Left: Look for breaching humpback whales, which migrate to Antarctic waters to feed during the austral summer.*

### **Iguazú Falls** Post-Program Option

The UNESCO World Heritage site of Iguazú Falls is one of the world's most incredible natural wonders, where more than 275 spectacular waterfalls span nearly two verdant miles of the Argentina-Brazil frontier, cascading from as high as 270 feet through one of South America's last remaining virgin rain forests. Visit the lush Parque das Aves jungle reserve, a nature lover's paradise, home to more than 350 species of birds, 66 varieties of mammals and a mind-boggling array of reptiles, fish, butterflies and flora. # Exploration of Antarctica

The intrepid deeds of Europeans Roald Amundsen, Robert Falcon Scott and Ernest Shackleton; Americans Admiral Richard Evelyn Byrd and Lincoln Ellsworth; and Canadian Sir Charles Seymour Wright, legendary explorers of Antarctica, have long been recounted in gripping personal tales and history books. Admiral Byrd, scion of a distinguished Virginia family, led the U.S. Antarctic expedition (1928-30) and made the first overflight of the South Pole (1929). Byrd later led three additional expeditions to Antarctica and named a large portion of the continent Marie Byrd Land after his wife.

Another American prominent in the exploration of the South Polar region was Lincoln Ellsworth. This Chicago native made the first flight across Antarctica (1935). In the course of his journey, he discovered the mountain range with the continent's highest peaks, later named Ellsworth Mountains in his honor.
